Professional Summary

Second-year B.Sc. Information Technology student seeking a Java Backend Developer internship or entry-level opportunity. Familiar with Java, Spring Boot, Spring Security, REST APIs, Spring Data JPA, Hibernate, and MySQL. Developed a Customer Support Ticketing CRM backend with ticket management, search, status updates, ticket notes, validation, and error handling. Interested in applying backend development skills to practical software projects.

Technical Skills

- **Programming Languages:** Java, JavaScript, HTML, CSS
- **Backend Technologies:** Spring Boot, Spring Security, REST APIs
- **Persistence Technologies:** Spring Data JPA, Hibernate, JDBC
- **Database:** MySQL
- **Tools:** Git, GitHub, Postman
- **Concepts:** Object-Oriented Programming (OOP), MVC Architecture, CRUD Operations, Input Validation, Exception Handling

Project

Customer Support Ticketing CRM

Java, Spring Boot, Spring Security, MySQL

- Developed REST APIs to create, retrieve, search, and manage customer support tickets.
- Implemented ticket status management with Open, In Progress, and Closed statuses.
- Added search by ticket ID, customer name, customer email, and description, along with status filtering.
- Used Spring Data JPA and Hibernate for database persistence and ticket-related operations.
- Implemented automatic ticket ID and timestamp handling for ticket records.
- Implemented ticket comments functionality to allow additional information to be added to support tickets.
- Implemented input validation and structured error responses for invalid requests and missing tickets.
- Tested backend REST APIs and responses using Postman.

Education

Bachelor of Science in Information Technology

July 2025 – July 2028

Shri GPM Degree College of Science and Commerce
University of Mumbai, Maharashtra

- Currently pursuing the second year of the undergraduate IT program.
- Relevant learning areas include Java programming, database management, web technologies, and backend application development.
